Note: In 2007 Kyosho started to renumber the AutoScale bodies from MZG to MZX. White bodies are renumbered from MZB to MZN.

Fitting body's on different chassis types.

When fitting a MR-01/015 body on a MR-02 chassis, front wheel off-set decreases by 2,5mm. Rear wheel off-set is equal.

When fitting a MR-02 body on a MR-01/015 chassis, front wheel off-set increases by 2,5mm. Rear wheel off-set is equal.

Most MR-01/015/02 body's using 90/94mm wheelbase, wil fit on the MA-010 chassis. With "after-market" wheelbase extension 98mm body's can also fit. Note that some of the lower body's will not fit without modifications to the crystal-holder! Wheel off-set is equal to MR-01/015.
